

Special Warfare and Combat Support Development Newsletter 03

THE TOP TIPS FOR YOUR CAREER FIELD!

SERE Top 11 Tips

- Attention to Detail is the number one factor in success; mistakes are costly
- Time Management is the next greatest factor in success
- Any task failed one day must be recompleted and turned in the next day
- Tasks keep adding up until completed, you quit or you are eliminated
- Build strong endurance in push-ups and pull ups; you'll be doing hundreds
- Running fast is not as important as being able to run far; endurance is important
- Be a team player; nobody makes it on their own and your job is to teach others
- Learn to sharpen an axe and a knife if you can, to save time later.
- Learn basic sewing if you have time, lower priority.
- Be prepared to speak like a professional. No "um, and uh, you know", etc.
- Memorize the Code of Conduct

EOD Top 5 Tips

- Attention to Detail is the number one factor in success; mistakes are costly
- Time Management is the next greatest factor in success
 - There is a lot to study and memorize, you can't waste time or fall behind
- Learn basic tools and how to use them, examples include: Adjustable wrench, Pliers (vice-grip, needle-nose, etc.), Tape Measure , Calipers
- Study to understand concepts first, then memorize data
 - There is a TON to memorize but you need to understand how various classes of munitions function similarly in order to make sense of procedures
- Stay fit; PT is difficult and being out of shape just makes life harder
 - Do lots of push-ups, pull ups, and flutter kicks
 - Improve core strength; you'll be using it a lot
 - Continue to run; you'll be running everywhere on the compound

Special Warfare Operator Enlistment (SWOE) Top 10 Tips

- Attention to Detail is the number one factor in success; mistakes are costly
- Be a team player; give more than you take but ask for help when you need it
- Fitness is important; you don't have to be first but you better not be last!
- Manage time and priorities wisely; don't waste time on things that don't matter
- People quit because they forget their mental toughness techniques: Goal Setting, Positive Visualization, Positive Self-talk, Time Chunking, and Arousal Control
- Ensure your core is strong and durable, many students are extremely challenged
- Ramp up your running to 30-60 minutes at an 8-minute mile pace
- Ramp up your running mileage to 15-20 miles per week
- Be able to do calisthenics for 50-minutes straight
- Practice Water Skills training, especially treading water!

MEMORIZE YOUR CAREERS MOTTO

SERE motto is:
"Return with Honor"

EOD motto is:
"Initial Success or Total Failure"

CCT motto is:
"First There"

PJ motto is:
"These Things we do,
That Others May Live"

SR motto is:
"Eyes Forward"

TACP motto is:
"The strong shall stand,
the weak will fall by the
wayside"

Pre-breathing 100% oxygen on the aircraft before a high altitude, low opening (HALO) parachute jump.

CHARACTER TRAITS

What are character traits of an operator? Traits are the distinguishing qualities or characteristics that typically belong to a person and are observable through our actions. It's not limited to a single value but the traits are demonstrated in the "good" choices and the "bad." Consequently the cadre members (instructors) look for good key traits when selecting students. They are looking for students with strong character, consisting of high values and integrity. Below are a few of the specific traits that they focus on:

The Three Golden Traits

- **Pays Attention to Detail** - This means to achieve thoroughness and accuracy when accomplishing a task.
- **Has a Sense of Urgency** - This term means that the student has a sense of a gut-level determination to move, and win, now!
- **Puts Team Before Self** - Defined, this means that team duties take precedence over personal desires.

Other Key Traits

- Is a Team Player
- Has Integrity
- Demonstrates Tenacity
- Demonstrates Grit
- Is Durable/Physically Capable
- Is Trainable
- Has Situational Awareness
- Detail Oriented
- Has Mental Agility
- Always on Time
- Shows Confidence
- Is Optimistic
- Is Enthusiastic
- Is Always Prepared

TACP Students on an overland march

CONSISTENCY: THE MOST IMPORTANT ELEMENT OF TRAINING

Without a doubt consistent training is the most important aspect of your development program and forward progress. In my experience, the candidates that perform well all have one thing in common: they've trained consistently and rarely gave up ground.

A well-designed training plan followed consistently will maximize results.

Consistency doesn't just apply to frequency or workouts, but how consistently you adhere to the workout format. It's no surprise that those who follow their plan precisely are the ones that see the greatest improvements in performance.

Having trouble maintaining consistency?

- *Have a well-balanced set of priorities to balance family, work, school, and your workouts* - Its important to design a training program that fits your lifestyle and can be followed consistently without upsetting other areas of your life. Make sure your goals don't overreach the available time you have to train.
- *Schedule time for your workouts as you would any other appointment.* Don't try to fit them in haphazardly; put workouts on your calendar or have a set time each day. I have found that athletes who workout in the morning have greater consistency than those who workout later in the day. Things will often occur throughout the day to sidetrack your workouts, and this is less likely to happen in the morning.
- *Make each workout have a purpose, consistently moving you forward.* A plan built four weeks in advance is more likely to be adhered to than one that is thrown together randomly.
- *Train hard, train smart and train consistently!*

AIR FORCE CORE VALUES

The Air Force core values are the foundation of leadership that consist of three fundamental and enduring values: integrity, service, and excellence. All Airmen must fully internalize these values to be able to act in all situations to maintain integrity, serve others before self, and to perform with excellence and encourage others to do the same. The Air Force core values—Integrity First, Service Before Self, and Excellence in All We Do—represent the commitment each Airman makes when joining the Air Force.

INTEGRITY FIRST

- Integrity is the willingness to do what is right even when no one is looking.

SERVICE BEFORE SELF

- Service before self represents an abiding dedication to the age-old military virtue of selfless dedication to duty.

EXCELLENCE IN ALL WE DO

- This core value demands Airmen to constantly strive to exceed standards and perform at their very best.

REPORTING STATEMENTS

- When Ordered

“Sir/Ma’am trainee [your name] reports as ordered.”

You will be required to say this statement before you begin any conversation with anyone you speak with when ordered at Basic Military Training, other than fellow trainees.

The reporting statement is only given at the position of attention and never any other position.

- Not Called Upon

“Sir/Ma’am, trainee [your name] reports.”

You will be required to say this statement before you begin any conversation with anyone you speak with when not called upon at Basic Military Training, other than fellow trainees.

The reporting statement is only given at the position of attention and never any other position.

FEEDBACK FROM THE FIELD

STUEDENTS OF EVERY SPECIAL WARFARE AFSC AT ALL STAGES OF THE PIPELINE WANT YOU TO KNOW:

1. You absolutely WILL FAIL, get used to it and get over it! Even if you don't fail, you will feel like you did
2. Get in the best shape you can and square away your personal life so you can focus on the challenge in front of you
3. Workout until the day you leave– many people fail their first PAST at BMT (you'll test while at BMT)
4. Do not game the system by faking injury or quitting; you'll be dropped from SW/CS and assigned a random AFSC
5. The Pipeline is harder than expected but those who make it are the ones who decide not to quit

People who desire challenge, adventure, and want to achieve their potential will find a way to make it

People who manage their fear and use mental resiliency techniques learned in Development make it

People who are used to success with minimal effort are the first to quit- adversity is a blessing

People who depend on recognition and praise from others usually quit

[The Most Inspiring Speech](#)

Be decisive.

**Right or wrong,
make a decision.**

**The road of life
is paved with
flat squirrels
who couldn't
make a decision.**

**Mental toughness is to
physical as four is to one.**

Bobby Knight

BrainyQuote

We are what we repeatedly
do. Excellence, therefore, is
not an act, but a habit.

Aristotle

Danger Close is a rare look behind the scenes of Close Air Support; the good, the bad, and the ugly. Steve Call, a former Air Liaison Officer (ALO) tells how Visionary TACPs and Air Liaison Officers (predecessors to TACP Officers) had to fight to get into battle and ended up turning the tide of war while simultaneously rewriting the book on Close Air Support.

This quintessential book on TACPs that covers the transition from ROMAD (Radio Operator Maintainer And Driver) to JTAC (Joint Terminal Attack Controller and how CAS went from an afterthought to primary fire support platform.

About the Publishers

Thomas DeSchane retired as a Chief Master Sergeant after 28 years of service as a Combat Controller. He has been a Special Warfare Developer since 2016.

Sean McLane retired as a Lieutenant Colonel after 23 years of service as a TACP, CCT and Special Tactics Officer. He has been a Special Warfare Developer since 2017.
